

# layered-cookies

annevk · 2025-07

# Recap

- Abstract browser-specific requirements
- Standardize partitioning of third-party cookies
- Standardize modest improvements
- Supplemented by activity in WHATWG, W3C Privacy CG, and elsewhere

# State

- <https://httpwg.org/http-extensions/>  
(Thanks for taking it on!)
- Added `_Http-` and `_HostHttp-` prefixes  
(Thanks Yoav!)
- `Delete-Cookie` response header still under consideration
- Looking for suggestions to reconcile client and server requirements

# Thanks!
